Application No.: CONS/24/0199

Application No.: TPO/24/0191

Site: FLETTONS, 51 MILFORD ROAD, PENNINGTON, LYMINGTON, SO41 8DH

Proposal: T1 Fell

T2 Fell

Reason: Unsuitable position for long term retention. The tree is positioned 2.5-3m from the adjacent cottage and entirely dominates the western aspect. Successive applications will be required to maintain the tree in a position that will not have a detrimental long-term effect on the property. The TPO created in 2011 did not fully appraise any long-term impact on the adjacent cottage as well as the risk of damage from failure of part or parts of the tree.

Partial helical failure of crown extending over roof of garage. Removal of failed section of crown will result in the remaining canopy of the tree being entirely weighted towards the neighbouring property. The tree has less than 10 years useful life expectancy and as such is not suitable for retention

Site: TALL OAKS, 1 CHURCH MEAD, LYMINGTON, SO41 8FN

Proposal: T1 To crown thin by up to 30%.

Proposal: Oak x 1 - Crown clean by reducing epicormic growth from within lower canopy. Remove branch at approx. 6m from ground level growing toward neighbouring property. Strip the growth from larger lateral limb growing over outdoor dining area.
